What is still missing for a complete Motive ELD packet

Packet-wide gaps

- All duty status / HOS graph segments (Off Duty, Sleeper, Driving, On Duty)
- All driving-hour and status totals
- Event list timestamps / locations from ELD (only appointment windows from RCs are known)
- Engine hours and odometer / total miles driven today (except RC estimated miles where present)
- Vehicle VIN / license plate
- Home terminal timezone
- Driver certification signature on each daily log
- Official Motive Vehicle Gateway export (this PDF is a styled shell only)
